DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 23 October 2008 has been entered.

Claim Objections

Claims 22 and 23 are objected to because of the following informalities: Both claims 22 and 23 are directed to the "method of claim 1"; however, claim 1 is directed to an apparatus, not a method. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3, 5, 6, 9-15, 22 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3733

Regarding claims 1 and 15, the phrase "different sizes" renders the claim indefinite. It is unclear whether the language "different sizes" refers to other sizes that are neither claimed nor bounded or to different sizes that are within the claimed range yet unspecified. The nature of the "different sizes" must be clearly set forth in the claims.

In addition, in claim 15, the language "or more" renders the claim indefinite because the scope or upper limit thereof cannot be determined.

Allowable Subject Matter

It appears that the prior art does not disclose or render obvious the claimed subject matter. Nevertheless, it is noted that the present action does not indicate allowable subject matter, nor merely objected to subject matter, and has not been issued as a Quayle action, because it is unclear whether the claims, once amended to correct the noted deficiencies, will be allowable. Further consideration of the corrected claims is necessary.
